

STOCKING THE HIGH-SECURITY CART

The High-Security Cart is ideal for storing and moving cleaning supplies, waste and safety items from room to room within healthcare facilities. Carts are broken up into three sections for improved organization: floor care, storage and collection.

FLOOR CARE

- 1 Integrated hooks on the cart side are built to hold two safety signs for spill management and wet floor care.
- 2 Recommended products for five stick good holders include:
 - Dust mop handle
 - Wet mop handle
 - Duster
 - Broom and dust pan
- 3 HYGEN™ Microfiber Charging Bucket fits securely on the bottom shelf.

STORAGE

- 4 Cart hood can be accessed from both directions and doors should remain locked at all times, per Joint Commission Standards.
Spray bottles or cleaning solutions can be stored in 10 qt pails located under the hood.
- 5 Inside, the cabinet is ideal for:
 - Cleaning solutions
 - Microfiber cloths
 - Paper goods
 - Waste liners

COLLECTION

- 6 The vinyl bag can be used to collect waste or soiled linens, and keeps these items separate from the rest of the cart.
- 7 A convenient waste cover and storage compartment is the ideal place to store a notebook, pens, paperwork, and extra gloves.
